SINGER'S SEWING MACHINES. THESE celebrated machines are in practical and profita-hic use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. ewing machines of other manufacturers often fail to work, SINGER'S MACHINES ALWAYS OPERATE PER-FECTLY, being strong, durable and complete in contrivance and workminiship. A perfect sewing machine kept employed affords a c ear profit of \$1,000 a year, but an imperfect one is a cause of constant vexation and loss. The entire anticastirr of our machines is one great reason for their apparalisied popularity.

MACHINES FOR PAMILY SEWING. of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch seye, not to perform substantial work. The truth is, mily sewing machines ought to be much stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of wark. The machines which have proved best for all other purposes must be best for family use, and they are Singer's.
The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

New machines of the latest improved style will be exchanged on siberal terms for old sewing machines of our own make, or for operative machines of other manufactur-ers. Local agents wanted to sell our machines.
